1. The airfield is just northwest of Chuguyev (49-50 N/36-41 E), Ukrainian S.S.R., southwest of the road to Kharkov (50-00N/36-15 E). The field was approximately 2 km square. There was no runway.
2. Four barracks buildings were immediately on the road and three additional buildings were behind them. All buildings were two-storied and had tile roofs. There was much traffic near the barracks. Three hangars and a radio installation with a radio mast approximately 12 meters high were in the southeastern corner of the field. An underground fuel dump and several earth bunkers were located between the barracks and the radio installation.
3. The field was occupied by approximately 20 or 25 biplanes, and 15 to 20 low-wing monoplanes with rigid landing gears, similar to the German Klemm aircraft.
4. Practise flights, local flights, and acrobatics were observed.
